THE GARDEN PAVILION KIT INSTRUCTIONS

Please check the contents of your dolls' house on delivery

Unpack your kit and study the contents carefully, relating the parts to the contents list and drawings. In the unlikely event of there being a missing or broken part then please ring 0845 434 9202 and our staff will ensure that the problem is dealt with promptly.

We recommend that all Dolls House Emporium kits are dry built first. Please read through all the instructions carefully before commencing. If, at any stage you would like any advice or assistance, please ring us on 0845 434 9202 and we will be pleased to answer any queries.

It is not recommended to keep your dolls' house in a conservatory - due to the extremes of temperature.

CONSTRUCTION

1

Dry build your kit now using masking tape.

NB: Whilst you dry build the kit, it is an ideal time to mark the panels and parts (lightly with pencil) that you wish to paint or treat before construction (e.g. ceiling, windows, doors etc). This is also a good time to decide how you would like to access the house. The construction method shown here allows the roof to lift off completely, but you may wish to add hinges to the roof, or keep a side panel loose for side access. Simply use your imagination!

Also we suggest that you work out the best time to decorate the various other parts in the kit. We recommend you do this during a dry build; a good idea is to create a list of what to do and when for, tasks such as papering rooms before putting the floors/ceilings in, fitting doors, installing lights, carpeting floors etc. When you have done this, run through the steps during another dry build to check your order will work.

This will give you more chance to become accustomed to the kit and can save a great deal of time and mistakes in the long run.

Happy building !
